## My Family

### Cooking And Baking with Family

**Class: 1**

**Subject: English**

Here our parents guided their little ones through the tasks appropriate for their age. Such as washing vegetables and to using child - safe knives under supervision.

Engaging children in cooking activities offers numerous benefits, including the development of fine motor skills, understanding of nutrition and fostering a sense of responsibility. Moreover, it encourages creativity and problem-solving as children experiment with different ingredients and cooking methods. Most importantly, it provides quality time for families to connect and create lasting memories together.

**Memory**  
you are my sunshine

## Uses of Five Sense Organs

**Class: II A**

**Subject: EVS**

A puppet show was conducted to help children understand the uses of the five sense organs in a fun and interactive way. The show featured five puppets, each representing one of the sense organs — eyes, nose, tongue, skin and ears.

Each puppet introduced itself and explained its function. At the end, all the puppets came together and reminded the children how important the five sense organs are in our daily life. The show concluded with a fun song about the five senses.

This activity made learning enjoyable and helped the children remember the uses of each sense organ effectively.

## Caring

**Class: III**  
**Subject: EVS**

The students of Class 3 participated in a role-play activity where they experienced the challenges faced by visually impaired individuals. Through this activity, they developed empathy and understood the importance of helping and caring for people with visual disabilities.

## Stages of plant growth -Speaking activity

**Class: - II**  
**Subject: - English**

Students took part in engaging activity where they explored the stages of plant growth by planting seeds and observing their development over time. Most importantly, students developed a deeper appreciation for nature and understood how plants play a vital role in our lives and the environment.

**Story Recap Activity with Drawing**  
**Class: IV- "A" and "B"**  
**Subject: English**

Through this activity, they have become well familiar with the story and some of them also created their own story with pictures.

This activity improved their story telling skills and they have also learnt to explore out of the book.

Many of the students brought out their talents in the drawing through this activity.

## The Versatile Palm Tree: Exploring its Uses

**Grade: IV**

**Subject: Tamil**

Palm trees are one of the most recognizable and versatile plants in the world. With over 2,600 species, palm trees provide a wide range of benefits to humans and the environment. This report will explore the various uses of palm trees, from food and shelter to crafts and medicine.

Palm trees are truly versatile plants, providing a wide range of benefits to humans and the environment. From food and shelter to crafts and medicine, palm trees play a vital role in many ecosystems and cultures. By appreciating and sustainably managing palm tree resources, we can ensure the long-term benefits of these incredible plants.

## Experiential Learning

**Class: IV**

**Subject: Science**

Here our class IV students make a simple and fun Potato experiment. To demonstrate the presence of starch in potatoes with the help of iodine solution, a chemical indicator that reacts with starch to turn blue-black. This experiment helps students to understand easily that starch is present in potatoes.

## Story Telling Activity about Patriotism

**Class: - V**

**Subject: - English**

This activity encouraged students to share their own ways of showing patriotism, such as respecting the national flag, keeping the environment clean or helping other hands. Through storytelling, values like unity, respect, and love for the nation becomes easier for children to understand and remember.

## Addition of Four Digit Numbers

**Class: III**

**Subject: Mathematics**

Through this activity students learned addition of 4-digit numbers. They showed great participation and enthusiasm in doing activity and getting the answer.

## Mind Without Fear

**Class: VII**

**Subject: English**

Debate participation promotes problem solving, innovative thinking and helps students to build links between words and ideas that make concepts more meaningful. Here our students of Class VII have participated in a debate with an effective information on the topic, "Ayurvedic Medicine Vs Modern Medicine" and have spoken well with confidence.

## Hooked on the story: Prequels and Sequels

**Class: VIII**

**Subject: English**

Our Students of Class VIII have participated in "Prequels and Sequels" activity and have showcased their creative thinking skills by narrating the story and asking critical thinking questions.

**Prequel** - Creating or exploring stories that precede the original narrative and developing backstories for characters or events.

**Sequel** - Continuing the story after the original narrative and exploring consequences, new plotlines or character developments.

Such an activity deepens their understanding of literary themes, techniques and it inspires creative writing projects.

## **Felicitations in the Assembly 12<sup>th</sup> School Topper – Ms.Geethanjali**

The Management, Principal and the Staff felicitated Ms.Geethanjali on Friday 13<sup>th</sup>, 2025 for her astounding performance in the 12<sup>th</sup> CBSE Board Examination, 2025.

Principal appreciated her stating that this is another milestone for our Rockfordians in their academic pursuit and excellence.

Ms.Geethanjali showed her gratitude to the Chairman, Director, Principal and the staff for this achievement.

## The Right to Education

Every child has the right to education, to play, to dream and to be safe. The right to education act was implemented in India in 2010. It is a fundamental right enshrined in article 21A of the Indian constitution. Education is a cornerstone of individual and societal advancement offering numerous benefits across various aspects of life. Education plays an important role in everyone's life. The word education not only means acquiring knowledge. The first objective of getting good education is to become a good citizen and then to become a successful person in personal and professional life. Good education will always increase our confidence level and it help us to determine what is right and what is wrong for us. Education makes us the right thinker and the right decision maker. Education helps us to develop personality and earn recognition and respect in the family and society. In this competitive world education is the most important thing, so never ignore the importance of education in life at any cost. Education encourages creative thinking and problem-solving fostering innovation and the ability to changing circumstances. Education is a powerful tool enabling individuals to achieve their full potential and create a more prosperous and equitable world. "Education is the most powerful weapon which you can use to change the world."-

--- **Nelson Mandela.**
