Role-play on Animals

Class: I

Subject: EVS

Students chose an animal and pretended to be that animal. They acted how the animal moves, sounds and lives. They crawled like a tiger, hopped like a frog and flapped like a bird. They also shared simple facts about the animal, such as what it eats or where it lives.

Learning Goals:

Improve speaking and listening skills

Develop creativity and imagination

Learn basic animal facts (habitats, sounds, movements)

Mind Map

Class: VIII

Subject: Social Science

- Students used a mind map to structure and connect ideas, concepts or topics visually.
- To break down complex information into key themes, subtopics and relationships for better comprehension.
- To encourage creative thinking by using colors, symbols and images to represent ideas.
- To Use visual clues to aid in remembering information and relationships between concepts.
- Students gain a clearer grasp of the topic by visually organizing information.

Mock Election

Class: V A & B

Subject: Social Science

The primary aim of Mock Election activity is to provide participants with hands-on experience of the electoral process, fostering an understanding of democratic principles and the significance of voting.

OUTCOMES:

- Enhanced understanding of the Electoral process.
- Increased political awareness.
- Development of critical thinking and decision- making skills.
- Confidence in voting.
- Teamwork and communication skills.
- Engagement in civic responsibility.

Mock Elections provide a practical, interactive way to bridge the gap between theoretical knowledge and real world application, helping participants become more informed and engaged citizens.

Onam and Teachers Day Celebration

Onam and Teachers' Day were celebrated with great enthusiasm and joy by all the students. The events were marked by vibrant competitions, cultural performances and a lively festive spirit. Students participated eagerly, bringing energy and excitement to every moment. Gifts and prizes were distributed as tokens of appreciation and encouragement. The Rockford Conquerors were adjudged the best in the Pookolam competition. It was a memorable day for the teachers and students of Rockford.

SCHOOL SHINES AT CM TROPHY COMPETITION

Our school shone at the CM Trophy competition with Dharshan Renu A. winning 2ND place in High Jump and Huda Aiman securing 3RD in Discus Throw. In Table Tennis, Anisha & Tanisha displayed outstanding teamwork and skill, bringing laurels to the school. Heartfelt congratulations to all our champions for their dedication, perseverance and remarkable achievements!

TIME TO CELEBRATE

OUR STUDENTS SET A NOVA WORLD RECORD!

In a grand celebration of the 11TH International Day of Yoga, our school proudly participated in the Yoga Nova World Records event under the 2025 theme: "Yoga for One Earth, One Health." Students Kritesh (Class IV) and Ranesh (Class II) performed the Baddha Konasana asana for 11 minutes, contributing to the highest number of participants performing the same pose simultaneously. This remarkable feat has been officially recognized and registered as a Nova World Record:

- Record No: NWR-2025-1201
- Date: July 13, 2025

Library Quiz Competition

Rockford Senior Secondary School organized an inter-house Library Quiz Competition in July. The four houses—Rock Warriors, Rock Legends, Rock Defenders and Rock Conquerors—participated with great enthusiasm. The quiz was based on *The Hindu in School* newspaper and the students showcased their knowledge by answering with confidence. In the Junior category, Rock Defenders emerged as winners, while in the Senior category, Rock Conquerors secured the first position. The school congratulated the winners and awarded them certificates in appreciation of their achievement.

BEST BOOK REVIEWER LIBRARY

Ms. Merlyn Jersey (Class VIII), Ms. Jossitha Varshni (Class VI) and Mr. Adithram (Class VIII) as Best Book Reviewers, while Mr. S. Yaswanth Gowda (Class XI) was honored as the Best Library User for August. The school appreciated their dedication and presented certificates in recognition of their remarkable achievements.

Basics in Cell Biology Comparison to RockForD Senior Secondary School

Each cell organelle in living cells is working systematically. So we can compare our school system to cell system. Comparative learning improves positive learning skills.

GREEN DAY CELEBRATION

Our Kindergarten children joyfully celebrated Green Day with great excitement and enthusiasm. The little ones came dressed in beautiful green outfits, spreading the message of love for nature. The classrooms and activity areas were decorated with green plants, and charts to create a lively atmosphere. Children participated in fun activities such as colouring, leaf printing and identifying green objects around them.

Teachers explained the importance of the colors green, which stands for growth, harmony and freshness and also highlighted the value of saving trees and protecting our environment. The celebration helped the tiny learners understand the significance of colors in a playful way and created awareness about the need to stay connected with nature.

It was indeed a joyful and eco-friendly celebration filled with smiles, learning and greenery all around.

POPCORN DAY CELEBRATION - KINDERGARTEN

Our Kindergarten celebrated Popcorn Day with lots of joy and excitement! The children came dressed in yellow and white, looking like cute little popcorn kernels. The classrooms were beautifully decorated with popcorn buckets, film reels and balloons to give a mini-cinema feel.

Children learned how popcorn is made and enjoyed craft activities like making popcorn tubs and movie tickets. To make the day more special, a cinema corner was set up where kids watched short animated clips while munching on fresh, crunchy popcorn – just like in a real movie theatre!

Teachers explained that popcorn is not only tasty but can also be a healthy snack. The combination of cinema fun and popcorn treats created a magical atmosphere for the tiny tots.

STUDENT CORNER

At our Rockford School; a library quiz competition is organized every month by the school houses. I took part in last month's quiz and my team proudly secured the first position. The quiz was based on "The Hindu School Newspaper" which encouraged me to start reading the newspaper more seriously. Initially, I read just to prepare for the quiz but soon, it became a daily habit. This regular reading has greatly improved my vocabulary, comprehension and overall reading skills. Now, I find myself eagerly looking forward to reading the newspaper each day. Even during exams, I make sure not to miss my daily news reading. It has helped me stay updated and aware of current events. What once felt like a task is now something I truly enjoy. Reading the newspaper has become my favorite part of the day.

STATE LEVEL SPORTS MEET 2025-26

Our school proudly participated in the **State Level Sports Meet 2025-26**, held on 19th, 20th and 21st of September at **Sports University, Chennai**. Our young athletes displayed exceptional skill, determination and sportsmanship throughout the event. **Evangeline Melanie** represented the school Under-16 Javelin Throw, while **Kavana** competed Under-18 Javelin Throw category. **Deedsha** showcased her talent in the High Jump event. They truly reflected the spirit of hard work and perseverance. This achievement has inspired many fellow students to pursue their goals with the same level of passion and commitment.

CLUB ACTIVITY – ECO CLUB

The **Eco Club** students from **Classes VI to IX** enthusiastically participated in an awareness skit activity on the theme “Depletion and Conservation of Water, Wildlife and Vegetation.” Divided into groups, each team selected a sub-topic and creatively prepared their own scripts. The students presented impactful skits that emphasized the importance of conserving natural resources and protecting the environment. The activity provided a meaningful platform for students to express their ideas, showcase teamwork and raise awareness among their peers. Through this experience, they developed a deeper understanding of the causes and effects of resource depletion, while also building creativity, confidence and communication skills.

CLUB ACTIVITY – LITERARY CLUB

"Recite with Flair"

Recitation is essential for students as it improves pronunciation, fluency and public speaking skills. It enhances vocabulary retention, comprehension and appreciation for literature. Here our Literary Club students of classes 6-9 have recited a poem from their text with intonation, stress and rhythm. Through poem recitation, students develop confidence, stage presence and critical thinking, ultimately fostering overall language proficiency and personal growth.

CLUB ACTIVITY – TAMIL CLUB

“Education Tour Beneficial or Not”

The debate on whether educational tours are beneficial or not bring out diverse opinions. Educational tours offer hands-on learning experiences and help students connect classroom knowledge with real-world applications. They promote cultural exchange, broaden perspectives and contribute to personal growth and development. Such tours often increase student engagement and motivation by making learning more interactive and enjoyable. However, there are also some drawbacks. The cost of organizing and attending these tours can be a barrier for some students, leading to accessibility concerns. Additionally, tours can disrupt the regular academic routine and in some cases, may have limited long-term impact on learning retention. In conclusion, while educational tours come with certain challenges, they can be highly beneficial when thoughtfully planned with clear educational goals. They provide unique opportunities for academic enrichment and personal development, making them a valuable part of holistic education.

CLUB ACTIVITY – MATH CLUB

“Puzzles and Sudoku”

Solving puzzles and Sudoku develops critical skills such as logical reasoning, problem-solving, memory retention, concentration, and patience. These activities provide mental stimulation, aid in decision-making, and can lead to improved performance in academic settings by training the brain to recognize patterns and think strategically.

TEACHERS' MINDSCAPE TRAINING

An inspiring teacher training session, delivered by Counselling incharge Ms. Aishwarya, aimed at helping educators identify and understand behavioral challenges in students. The workshop offered teachers a fresh perspective, enabling them to recognize early signs of emotional and behavioral difficulties with confidence and clarity. Through interactive discussions, practical examples and reflective activities, teachers gained valuable insights into students' needs and learned strategies to create a more supportive and nurturing classroom environment. This initiative has empowered educators to respond effectively, fostering positive growth and well-being in every child.
